Smart Living Wi-Fi camera doorbell & Door Lock

Smart Living Wi-Fi camera doorbell & Door Lock

is a biometric digital WIFI Smart Living intelligent door lock suitable for household or apartment. it with visible smart cat eye (1.0mp camera) and doorbell for One key to open the door automatically lock.

Good point is that Fingerprint recognition speed less 1second. it apply with powerful anti-theft system, anti-peep virtual password and anti-pry alarm system.

Product Name	Smart Home Door Lock with camera and doorbell
Door Type	Wood door, Aluminium door, Brass door
Lock Body	Standard Lock Body(6068 24*240mm)
Typical current	<50 μA (batteries for more than one year)
Working current	<250mA(Strong Drive)
Unlock ways	Phone App+ Fingerprint+ PIN Code+ Card+ Mechanical Key
Working with	6V, 4X AA batteries (not included)
Material	aluminium alloy
Number of visits	<=100 groups (9 groups of managers and 91 groups of users)
Number of open door machines	<=300 groups (9 groups of managers and 291 groups of users)
Number of Pin code	<=300 groups (9 groups of managers and 291 groups of users)
Rejection rate	≤0.15%
False rate	≤0.00004%
Password Capacity	<=100
Low Voltage Alarm	4.5V
Working Temperature	-10~60°C
Humidity	20%~93%

[SMART]:LIVING

Visible Smart Cat Eye

When the doorbell is pressed outdoors, the image displayed on the indoor screen is clearly visible, and the wide-angle camera is visible outside safely

Fingerprint identification of semiconductor living organisms

Hold and touch the fingerprint sensor and quickly and efficiently identify correct fingerprints with low power consumption and high accurate identification efficiency

Speed recognition
 $< 0.3s$

Wear-resistant times
 $= 1.00$ 万

Anti-authenticity
 $\leq 0.01s$
 Anti-truth rate

Fast Recognition, One-touch Open

Recognition Speed
 ≤ 1 Second

Increase 25% more fingerprint collection area

Significant increase in fingerprint recognition speed

Powerful anti-theft system

Independent protective Electronic Programme shielding magnetic fields of interference fearless black technology illegal lock

Anti-peeping virtual password

Enter any number before and after "correct password", and enter the password continuously and correctly in the middle to unlock the lock. The password can be up to 16 digits to prevent cracking and ensure ease of mind.

***** Correct password *****
 Virtual password **459954** Virtual password

Anti-pry alarm system

Violence lock once happened Pentalobe induction device immediately start trigger alarm a huge alarm sound

- Low power alarm
- Try to open the alarm
- Lock alarm

6 UNLOCKING METHODS

Meet the needs of multiple scenarios

 I-Touch fingerprint unlock	 Virtual password can set one-time password	 Magnetic card unlock Convenient Claus door open
 Temporary key	 TUVA WIFI Smart Home Networking	 Mechanical Key Emergency unlock

Lab Test by 4pcs AA battery working time is 12month
